- This entire page is compiled using HTML5 and CSS3, and also uses JavaScript.

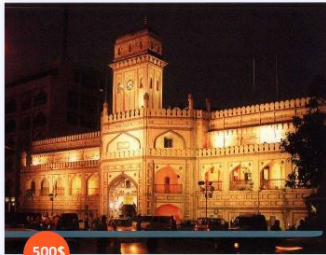

Famous Tourist Destinations

600$

Bangalore ★★★★☆
Bengaluru (also called Bangalore) is the capital of India's southern Karnataka state.The city is also known for its parks and nightlife.Located in southern India on the Deccan Plateau, at a height of over 900 m (3,000 ft) above sea level.

900$

Mumbai ★★★★★
Mumbai (formerly called Bombay) is a densely populated city on India's west coast. A financial center, it's India's largest city. On the Mumbai Harbour waterfront stands the iconic Gateway of India stone arch, built by the British Raj in 1924.

500$

Surat ★★★☆☆
Surat is a large city beside the Tapi River in the west Indian state of Gujarat. Once known for silk weaving, Surat remains a commercial center for textiles, and the New Textile Market area is lined with fabric shops.

PAYMENT GATEWAY
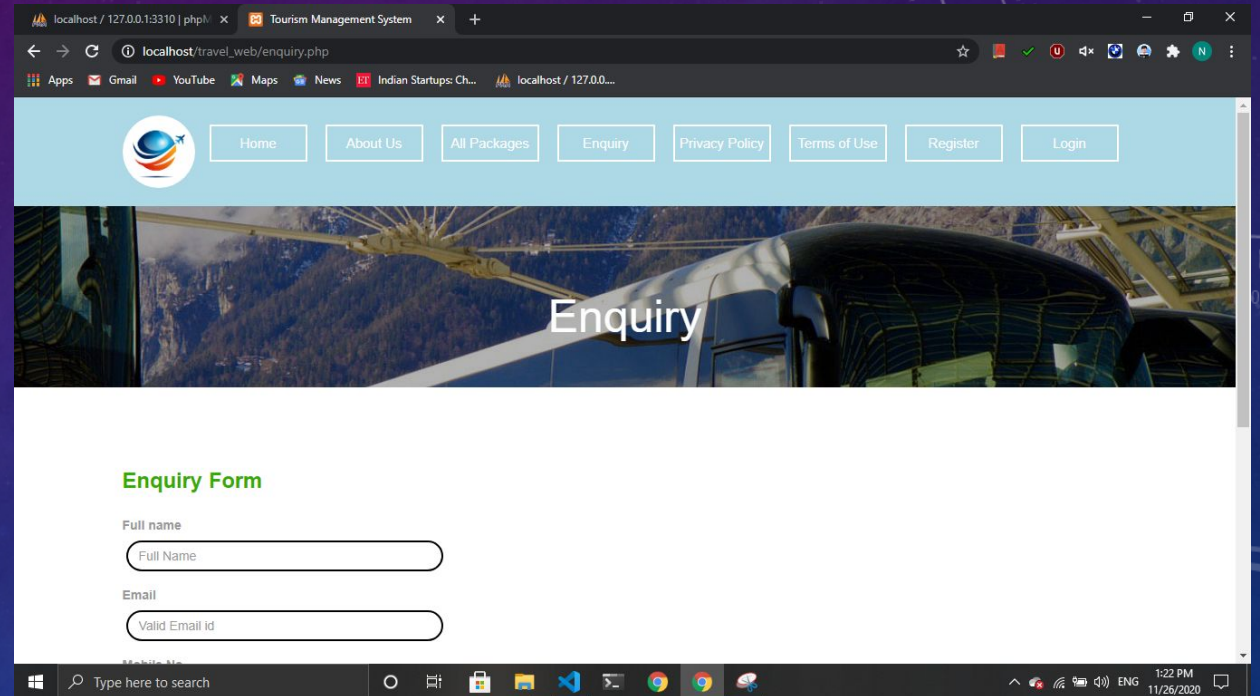

- A payment gateway is an integral part of any booking.

- In this, the user must provide basic information like name, email, along with card details to complete the booking.

- After the booking, the page will prompt the user that booking is successful.

ENQUIRY FORM

- This enquiry form is used to enquire about the available packages.

- It is an HTML form, and it has inputs for name, mobile number, email, subject and description.

- This can be used to enquire about the products available on the website.

CONCLUSION

- This project has helped us implement various features of Web Design, like HTML5, CSS3, JavaScript and php.

- We learned how to create a dynamic website, create interlinked pages, have a database connection and various other features that go into making a website.

- By implementing this project we have learned how to use, create and host a website using Web Design.

THANK YOU!
